PROFILE SUMMARY

Motivated and detail-oriented Data Science graduate with a strong analytical mindset and a passion for solving real-world problems using Machine Learning, NLP, and Generative AI. Experienced in working on academic and project-based tasks that involve data interpretation, critical thinking, and structured problem-solving, including deep learning models, LLM-powered applications, and interactive data dashboards. Demonstrates the ability to learn quickly, adapt to new environments, and collaborate effectively within a team. Eager to begin a professional career in AI/ML or Data Science and contribute to organizational growth while continuously learning and improving.

TECHNICAL SKILLS

Programming: Python, R, Java

Databases: MySQL, PostgreSQL, MongoDB

ML / DL: Scikit-Learn, TensorFlow, Keras, PyTorch

Generative AI & NLP: LLM Integration (Ollama, LLaVA), Prompt Engineering, NLP, NLTK, Reinforcement Learning

Data Visualization: Power BI, Matplotlib, Seaborn

Web Development: HTML, CSS, Bootstrap, Django

Big Data: Hadoop, Hive

Tools: Git, Jupyter Notebook, VS Code, REST APIs

EXPERIENCE

AI/ML Intern | [View Certificate](#)

Jan 2026 – May 2026

Christ Infotech, Pune

- Built a Generative AI system to create quizzes, flashcards, and summaries from uploaded course documents, reducing manual content preparation time by nearly 70%.
- Developed an AI Tutor using LLM integration and prompt engineering to answer student questions across 3+ subject modules with fast response times.
- Improved AI-generated answer quality and relevance by approximately 30% using prompt engineering techniques such as few-shot prompting.
- Designed and developed a scalable Django backend supporting 5+ AI-based features including quiz generation, summarization, and question-answering.
- Integrated support for multiple input formats including text, images, and PDF documents, increasing platform usability from 1 to 3 content formats.

PROJECTS

LearnBridge – AI Assisted Course Platform | [GitHub](#)

2026

Python, Ollama, LLaVA, Django, HTML, CSS

- Developing a full-stack AI learning platform that generates quizzes, flashcards, and explanations from uploaded academic documents using local LLMs (Ollama + LLaVA).
- Built a document-processing pipeline and AI Tutor module capable of answering course-specific student queries across 3+ subject domains.

Reinforcement Learning Game Environment | [GitHub](#)

2025

Python, PyTorch / TensorFlow, OpenAI Gym

- Designed and trained a custom Grid-World RL agent using Q-learning, achieving stable policy convergence within 500 training episodes.
- Visualized learning curves, cumulative rewards, and agent behaviour using Matplotlib and NumPy to evaluate policy performance.

Emotion-Based Music Recommender System | [GitHub](#)

2025

Python, Django, Machine Learning, NLP, HTML, CSS, Bootstrap

- Built a full-stack web application that detects user emotions and recommends music using Machine Learning and NLP techniques.
- Implemented an emotion classification model achieving approximately 85% prediction accuracy and integrated it with the Django backend for real-time recommendations.

Emotion Detection Using Hybrid CNN-LSTM | [GitHub](#)

2025

Python, TensorFlow / Keras, NLP

- Built a hybrid CNN-LSTM model for multi-class emotion classification across 6 emotion categories using Deep Learning and NLP.
- Trained the model on 10,000+ labelled text samples, achieving approximately 88% F1-score and outperforming a baseline LSTM model by 6%.

Sales Performance Dashboard | [GitHub](#)

2024

Power BI, DAX, Power Query

- Analysed 50,000+ sales records using Power Query to identify product trends and regional sales patterns.
- Built an interactive Power BI dashboard with KPI tracking, drill-down reports, and DAX measures, reducing report generation time from 4 hours to on-demand reporting.

EDUCATION

MSc in Data Science

2024 – 2026

Christ University, Pune Lavas | CGPA: 7.75

BSc Statistics

2019 – 2024

HPT Arts and RYK Science College | CGPA: 8.41

CERTIFICATIONS

- **Data Analysis and Visualization with Power BI** — Microsoft (Coursera), 2025 [View Certificate](#)
- **Introduction to MongoDB** — MongoDB University, 2025 [View Certificate](#)
- **Generative AI for Data Science** — IBM (Coursera), 2026 [View Certificate](#)
- **Google Cybersecurity Professional Certificate** — Coursera, 2026 [View Certificate](#)

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Class Representative

2024 – 2025

- Coordinated communication between students and faculty regarding schedules, feedback, and academic updates.

Inclusiverse Club – Core Member

2023 – 2024

- Organized awareness activities supporting inclusion of children with intellectual disabilities.

LANGUAGES

English • Hindi • Marathi
